### Re: Corrib Onshore Pipeline

Dear Mr. Gill,

I would like to take this opportunity to thank you and your company for the excellent services and support you have delivered to Roadbridge on the Corrib Onshore Pipeline Project from 2007 to present date.

I firmly believe that the Defensive Driver Training & Load Securing Training Programmes your company delivered has resulted in very significant reduction in road risks for our workforce and has raised road safety awareness significantly.

Furthermore the support Gills have offered the project have provided both safe driving skills to drivers and assurance to both Roadbridge and our client SEPIL that our heavy haulage activities are being undertaken safely on an ongoing basis.

I highly recommend your company to other prospective clients who may wish to promote road safety within their business.

Yours Sincerely,

Thomas Walsh  
Contracts Manager
